Price Drops When 100,000 Barrels of Birds Arrive From

Texas.

The threatened shortage of turkeys for Thanksgiving Day went up in THE KING OF TABLE WATERS smoke this morning when 2,000,000 Texas birds arrived at the West Washington Market, known to dealers as the wholesale market. No only is there no shortage but according to wholesale dealers it will be hard to dispose of all the turkeys now on hand.

At the present time the price, which on Monday was 31 cents a pound, has fallen off to 24 cents and in all likelihood will go lower to-night.

It was the cool weather which made possible the shipment of 100,000 barrels of Texas turkeys into the city. There are an average of twenty birds in each barrel.

after settling its franchise tax dispute with the city on the basis of 40 per cent, reductions was told to-day at the hearing before Justice Newburger of the \$30,000 suit brought by Henry W. Bridges against the Consolidated Company for "legal fees." Robert A. Carter, Vice Presiden and Secretary of the Consolidated company, was compelled under crossexamination to tell about the destroying of figures. Auring negotiations for the settlement of the franchise tax figures the Consolidated company loudly complained that valuations put on its holdings were too high. It agreed to hire experts to appraise its property and to pay the expense of the appraisal. The firm of Marwick, Mitchell &

Co., expert accountants, was retained. It sent figures to the Attorney General's offices. The Gas company did not like these figures. So, before paying for them, it insisted that they should be sent back to the Consolldated Company. This was done, and, as far as the Attorney General's office knows, they were destroyed. They are not matters of public record at any rate.

It was after much adroit question ing of Mr. Carter that Former Judge William N. Cohen, himself a tax expert, who is counsel for Bridges, brought out these facts. Mr. Carter is the tax expert of the Consolidated Company.

Under cross-examination to-day he egan by saying he had been connected with the Consolidated Gas Company since it was formed in 1884, and before that was an accountant flagship, Arkansas. Judge Cohen then got around to the settlement of the Consolidated franchise tax.
